## Eastgate Care Development

Eastgate is a family run organisation, established 28 years ago, to provide nursing and residential care in a safe home location. We understand how to look after those who aren't now able to fully care for themselves, in our homes.

Traditional organised activities are popular and a range of engaging and stimulating pastimes, including crafting and music events are scheduled.

Food is equally important, special diets are catered for, there is a balanced

changing menu with home cooked food a high priority. We listen to the needs of the residents and act upon this.

Our focus is on providing a safe, caring and supportive home, with an emphasis on warmth, fun and happiness. We are able to care for people with a range of health and other support needs including dementia.

A varied & stimulating activity programme

## Melbourne House Care Home

Pet therapy brings much joy to our residents

creating a sense of purpose, benefiting residents and youngsters alike.

We actively encourage our residents and their families to be involved in the choices within the home, through a relatives & residents committee, to voice opinions and effect change if necessary.

*'It is difficult to put into words how much we appreciate the respect we all feel towards you, for making it possible for Mum to experience the dignity she deserved, surrounded by voices she felt safe with. You are all very special people'*
